FROM: CBHTS-HTS Officer

DATE: 15th May 2025

Dear Sir,

RE: REQUEST FOR FUNDS TO CONDUCT MOONLIGHT TESTING SERVICES IN BLANTYRE.

I am writing to request funds to conduct Moonlight Testing services in Blantyre City during the month of June, 2025.

HIV testing is one of the key strategies in the HIV prevention and control programs. However, utilization of these services among men, particularly those at high risk, is still low in Malawi and Blantyre in particular. Men site several reasons and among them being uncondusive testing time as they are always busy during the day doing some economic activities.

Moonlight Testing aims at bringing Community HIV Testing services closer to targeted population (Men) in mapped hotspots during the evening hours. The strategy aims at increasing utilization of HTS to support the attainment of the 95-95-95 goals.

Therefore, I am requesting funds amounting to **MK 484,040.00 (Four hundred eighty-four thousand and forty Kwacha only)** to carter for security, fuel for delivery vehicle from 6th to 27th June, 2025. The funds will be taken from **Activity 2.1.1 Accelerate case finding through moonlight testing.**

Regards,

Louis Mkwatula –CBHTS Officer

SCOPE OF WORK FOR MOONLIGHT TESTING

Submitted to Head of Programs by Louis Mkwatula

(June 2025)

1.0 Introduction

MACRO is implementing CBHTS activities targeting males aged 20-39 years in Blantyre city using a number of several modalities including Moonlight testing.

Moonlight testing involves testing clients at night in hotspots to cater for people who cannot get tested during the day because of work commitments and others who are afraid to get tested during day time.

IMPACT plants to conduct moonlight testing from 6th to 27th June 2025 in selected hotspots of Blantyre City.

2.0 Aim and Objectives of Moonlight testing

Aim

- Provision of HIV testing services to high risk men

Objectives

- To conduct risk assessment to priority population
- To conduct HIV testing
- To distribute HIVST to eligible clients
- To distribute condoms as preventive strategy
- To refer clients for STI and ART

3.0 Approaches

The testing team will visit selected hotspots where moonlight testing will be conducted. The team will comprise with HDAs, H D A supervisor MOH providers and security.

Clients seeking services will be assessed for their HIV risk, using the risk assessment form. Those identified as High risk will be offered HIV testing.

All clients that will test positive will be referred to facility for confirmatory testing and link them to care treatment. On the other hand, those that test negative will be linked to preventive services including condoms.

4.0 Program

Date	Site	Catchment area	Responsible person
6 th June 2025	Easy by Night	Mlambe	Alinafe
13 th June 2025	Mthukwa	Chilomoni	Symon
20 th June 2025	Half London	Mlambe	Anne
27 th June 2025	Chadzunda	Mpemba	Chifundo

5.0 Participants

- Chifundo Phulusa
- Phibbie Malemia
- Christopher Banda
- Esmey Macheso

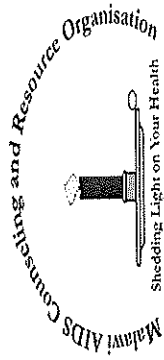

- Annie Kambalame
- Symon Duncan
- Kondwani Reuben
- Lazarus Mangani
- Louis Mkwatula
- One MOH HTS Provider
- One MOH HTS Coordinator
- Two Police Officers
- Driver

6.0 Key Deliverable

- Number of clients tested
- HIV positive clients identified and referred
- Condoms distributed
- HIV Self-Test kits distributed

7.0 Resources required

- Dinner allowances for Security and MOH staff.
- Mobile Van
- Fuel

IMPACT CBHTS

MOONLIGHT TESTING REPORT- JUNE 2025

Malawi AIDS Counselling and Resource Organization (MACRO)

P.O. Box 797

Lilongwe, Malawi.

Compiled by: *Louis Mkwatula*

Cell: 0881640566

E-mail: lmkwatula@macromw.org

Introduction

MACRO is implementing CBHTS activities targeting males aged 20-39 years in Blantyre city using a number of several modalities including Moonlight testing.

Moonlight testing involves testing clients at night in hotspots to cater for people who cannot get tested during the day because of work commitments and others who are afraid to get tested during day time.

IMPACT conducted moonlight testing from 20th to 30th June 2025 in selected hotspots of Blantyre City.

Aim and Objectives of Moonlight testing

Aim

- Provision of HIV testing services to high risk men

Objectives

- To conduct risk assessment to priority population
- To conduct HIV testing
- To distribute HIVST to eligible clients
- To distribute condoms as preventive strategy
- To refer clients for STI and ART

HIV Testing

A total of 27 clients were tested through moonlight in four catchment areas where we identified 3 positive cases and were successfully linked to care and treatment.

The yield in this modality was 11%

Summary of Services Offered

Indicator	Achieved
HIV-SELF test distributed	89
Clients Tested	27
Positives identified	3
Yield	11%
Condoms Distributed	2343

ADVANCE REQUEST CHECKLIST (MAKE SURE THE FOLLOWING ARE IN ORDER)

- ☒ Description of activity (What) and how it benefits the project (Ref to Detailed Implementation Plan)
- ☒ Rationale for the activity (Why) and how it benefits the program (DIP reference code).
- ☒ Agenda and duration of activity (How long).
- ☒ Location of activity (Where) and why on this location if alternative locations exist.
- ☒ List of participants, facilitators and support staff (Who) and provenience (Where from).
- ☒ No previous advances outstanding.
- ☒ Person requesting advance is directly involved in, or knowledgeable about, the activity.
- ☒ Approved budget line.
- ☒ Approval consistent with approval matrix.
- ☒ If fuel is needed, calculations are in accordance with DSA policy. [Copy of approved Advance Request must be used to request fuel cards and reconciliation of fuel used after the trip.]
